HALIFAX, Saturday, Feb. 28.

The R. M. steamship Niagara, Capt. WEEKMAN, arrived here at an early hour this morning, en route for this city, to be dispatched to New-York in the usual manner.

The Niagara left Liverpool on the afternoon of Saturday, the 14th inst., her advices are, therefore, three days later than those received by the Persia at Boston.

She reports a very boisterous passage. On the 19th encountered a gale with the steamer Kangaroo, bound west.

The screw steamer City of Washington, from New-York, arrived at Liverpool on Thursday, the 12th inst.

The United States steamship Advance arrived at Liverpool on the 13th.

The Persia, at the same hour on the 14th, was making the run in a little over [illegible] miles in three successive days, the average being 340 miles.

The Arabian having been repaired, sailed from Southampton on the 12th inst. for Bremen, and would leave Southampton for New-York on the 26th inst.

The steamer Constitution, from New-York, arrived off Queen on the 10th, and proceeded same day for Antwerp.

The steamer Cadiz sailed from Liverpool on the 11th for New-York.

The Canada had sailed for Marseilles, to take her place on the General Australian line.

Continued Continuance of the Persian War.

It is not intended, says the Daily News, to send any troops from England to Persia. This announcement we make with the most entire confidence that it will be found to be correct. We believe that we may add that the force already in Persian will not advance into the interior, and that every effort is being made to bring about a peace. The Murray affair, and the refusal of Persia to receive part of the negotiations, which was being carried on at Paris by Pasmure Russe and Lord Cowley, and there is no question every where of the continuance of amicable relations between the English and Persian Governments.

The War with China.

The Daily News gives prominence to the following paragraph; but another column we have quoted that no troops are to be sent from England to Persia. We have equally good grounds for believing that no troops are to be sent from Singapore to China.

The New Movement Spreading.

The Times, after remarking that the satisfactory settlement of the questions relating to the Danubian principalities cannot be accomplished by such an [illegible] as appeared, a few days since, in the Moniteur, proves the opinion that it will be the duty of England, as decision positively against any compromise of the honor or interests of the British Empire, and to act with firmness in the support of the rights which have been taken against the proposed union of the Provinces of the Danube.

Spain.

MADRID, Feb. 12.—A madman attacked the Empress to day. He was instantly arrested. No arms were found upon him. He declared his intention was merely to embrace her.

The Emperor will open, in person, the Legislative Session of 1857, on Monday, February 16, at ten o'clock precisely.

It is mentioned that a commission has been appointed to consider the currency question, who propose to establish a uniform currency or other wise [illegible]

The question of the fall on public companies is still [illegible] According to some accounts, there is to be a charge of three per cent. on dividends, and four per cent. on interest.

Switzerland.

Berne is now definitely named as the place of conference on the Neufchatel question. The conferences will most likely protract [illegible] many months.

Greece.

The course of the new Greek Ministry have been satisfactory to France and England her approval, and it is reported that they are satisfactory.

Russia.

Trouble has reported between the Shah and his Prime Minister, who is accused of wishing to depose the Shah in favor of Hellis, the conqueror of Herat.

The powerful tribe of Kabeas are reported to be on the eve of insurrection.

The French Moniteur of to Feb. however, contradicts all the above statements.

NEW-YORK CITY.

Fire in Fulton-street—Daring Attempt at Incendiarism and Robbery.

About 2 o'clock last morning a loud explosion was heard on Fulton-street, near Spruce-st, and the vicinity. Immediately thereafter the bells rang out an alarm for the 6th district. Citizens, firemen, the Metropolitan watch, and policemen were startled, and all hurried toward the premises No. 146 Fulton, recently occupied by Messrs. Mast & Jenkins, shoulder straps and liquor dealers. The doors and windows of the place were shattered and broken, and scattered in all directions, the result of a terrific explosion. Flames and smoke were issuing from the building, and for a time a conflagration seemed imminent. The Insurance watch, however, were busily at work in an instant, and the fire was soon wholly quenched. The building was thus entered, and a strange sight the interior presented. Everything within it was scattered and heaped about in wild confusion; not a door that was not smashed; and not a window, front and rear, that was not completely demolished.

On examination it was found that a fire had been kindled on the desk floor, at the top of the cellar-way, and that a quantity of powder had been there placed with a view no doubt to the demolition of the building or the destruction of its contents. The plot was not well planned, however, for beyond the demolition of the doors and windows, and the mixing up of and breakage of some of the stock, no damage was done

The whole loss of property will not exceed $500.

Messrs. Mast & Jenkins have an insurance on their stock for $10,000—$6,000 in the City, and $4,000 in the National Insurance Company.

Messrs. C. & J. declare that they have never had a grain of powder in their premises, and Mr. Jenkins avers that he, himself, left the store secure and locked in the usual time of closing on Saturday.

It is a strange case. The Fire Marshal is investigating it.

POLICE INTELLIGENCE.

THE RAYNER BOYS TO MAKE THE WIND—SOME SMART MOVE ON INTO THE TELEGRAPH ROBBERY OF THREE HUNDRED.

Notice was given by Sergeant Owens, at the office of the Chief of Police, on Saturday night, that certain boys were engaged in collecting money from liquor proprietors and others, by delivering to them the telegraphic reports, forged dispatches, purporting to be sent from Howe's Telegraph Office in Wall street. It was further stated that one of these boys was then at Tammany Hall engaged in practicing this dishonest trick. Officer McIntyre was sent to Tammany Hall, where he took in charge the boy alluded to, who gave the name as Ernst Mahoney, his age 16 years, and his residence No. 36 Whitehall street.

On the person of Mahoney was found an entry book such as telegraph boys carry, and about a dozen bogus dispatches to various parties, filled out in a good business hand; very well expressed and properly punctuated. The blanks were the genuine used at the office of the Telegraph Company and, as subsequently appeared, were purloined from a telegraph boy by an accomplice of Mahoney.

Mahoney, when brought to the Chief's Office, confessed the whole story. He said that he had been, with some boys, (whose names he gave,) engaged in the same business for which he was arrested; and further, that the profits resulting therefrom were to be divided. The usual charge for one of these dispatches was $1, though they sometimes got more. These dispatches were usually addressed to some faro keeper, and purported to come from some gentleman from a distant city, asking that a room might be reserved for himself and family, who would arrive in New York on such a day.

On the information thus furnished Officers McIntyre and Ackley proceeded to the tenant house, No. 10 Spruce-street, and there, at 3 o'clock Sunday morning, arrested Joseph Halloran, a boy of 18 years, who, it seems, was the principal of the gang of young forgers, and who filled out the blanks, and directed the movements of Mahoney and the others.

Both prisoners were conveyed to the First District Police Court, where Justice Osborne committed them for trial, each in default of bail in the sum of $500.

Later in the day a messenger-boy named McCabe, employed in the telegraph office, was arrested as an accomplice of the boys in custody, for furnishing that other with the office blanks and envelopes. He, too, was committed.

Thus is broken up a gang of shrewd and daring young forgers.

THE IMPROVED PHOTOGRAPH.

The public should not omit an inspection of this wonderful accomplishment of the Camera. It seems impossible to conceive a further advance in the art of PHOTOGRAPHY. Pictures which a few years ago were unattainable, and which elsewhere are now executed in a monotonous and peculiar manner, with an artistic grace and symmetry which hitherto Photography has been deemed incapable of attaining. The Imperial Photograph may be examined at BRADY'S Gallery, No. 359 Broadway.

The process of reproducing copies of Portraits by Photography has recently been the subject of many valuable improvements. Any requisite number of copies of Daguerreotype, Oil Painting, Bust or Sketch is produced as readily as engravings are printed from a plate. Their cost is but a trifle. BRADY has established a copying department at his Gallery, and persons desiring copies of Pictures will find that a dozen impressions are not more expensive than a single one by the old method.

Another Mystery in Brooklyn.

The residents of a suburban portion of Brooklyn were aroused by the cries of murder on Thursday night last, which proceeded from a house occupied by several persons who have not lived on the best of terms. The cries subsiding, nothing more was thought of the occurrence until Saturday, when a coffin containing the body of a grown person, not known by the neighbors to have been sick, was taken from the house and interred in an out-of-the-way cemetery. This circumstance, in connection with the cries of murder heard Thursday night, aroused the suspicion that there had been some foul play, and accordingly Coroner RENDINE was notified, and will investigate the mystery to-day.

Another Brutal Outrage Upon a Female in Brooklyn.

Mrs. MATILDA MAY, of No. 91 Fulton-street, Brooklyn, while passing through Tillary-street, near Gold, Friday evening last, was seized upon by several of the ruffians who infest that vicinity, and dragged by them into a slaughter-house, where they attempted to violate her person, but failing in this they took her earnings, and several other articles of value, from her person and departed. One of the parties to this outrage, a villainous looking scamp named JAMES MURPHY, was arrested by officer Fox of the Second District Police, and was identified by Mrs. MAY as the ringleader. He was brought before Justice SMITH, on Saturday, and, after giving such information as will probably lead to the arrest of his associates, he was committed for examination.

Mrs. MAY had been to a store on Myrtle-avenue to purchase groceries, and was returning home about 10 o'clock, when the outrage took place, in one of the most thickly settled portions of the city. She was detained by her captors several hours, and it was principally through her exertions that the leader of the gang was secured. He detained her after the others had departed, and when he left she followed him, and meeting the officer, had him arrested.

Fatal Fluid Accident.

CATHARINE DWYER died at the Flatbush Hospital, Saturday, from injuries received by burning fluid at the house of Mr. GILMURRY, Second-street and South Seventh, Eastern District of Brooklyn, Wednesday last. This is the woman who was so inhumanly treated on the way to the Hospital. She was placed in an old Hearse wagon, in a cramped position, while so badly burnt that the easiest position possible in an easy wagon would have been torture. In addition to this the wagon broke down, and in this position she was left for an hour or so, until some citizens accidentally discovered her situation and took her in charge.

Highway Robbery.

A German named ANTHONY SHUMAKER on Friday night last, while proceeding to his home on Fourteenth-street was attacked by two men on Ninth-street, in the Twelveth ward, who after knocking him down robbed him of a box of carpenters' tools, a cap, and a small sum of money. The villains thus far have escaped arrest.

Body of a Child Found.

Officer MCMAHON, of the Third District Police, last evening found the body of a child buried in the sand at the corner of Wolcott and Richards streets, Twelfth Ward. It was taken to the Station-house and the Coroner notified.

Fatal Accident.

A boy named WM. J. DAILY, residing with his parents, at the corner of Hudson-avenue and Water-street, Brooklyn, died, yesterday morning, from burns received a few days ago, by his clothes taking fire.

Sudden Death.

Mr. TELLY LYNDE, a well-known citizen of Brooklyn, died suddenly in his chair, at his residence No. 117 Columbia-street, yesterday morning, from apoplexy.

MONDAY, March 2—A. M.

The steamship *Niagara*, from Liverpool Saturday, Feb. 14, arrived at Halifax on Saturday morning. A partial summary of the heads of the news appeared here in the afternoon edition of the Associated Press. The fuller details will be found in another part of this paper. The Money and Cotton advices are the most important of the season. The recent improvement in the tone and terms of the Continental money capitals has been followed by a decidedly easier market in London, and an important rise in the Funds to 94 ₱ cent. The Bank report to the 7th February shows a falling off of $800,000 or £160,000 in the Gold reserve, leaving the total still above ten millions sterling. The week succeeding the report, part of the heavy arrivals of Gold from Australia went into the Bank, removing all immediate probability of a rise in the rate of interest. The American Funds are quoted steady; Illinois Central shares, 129¾@130, and the Bonds 90 ₱ cent. The other quotations, as far as telegraphed, much the same as by the previous packet. The advance in Cotton for the week is equal to fully ⅛ the bale; the greatest rise taking place on the morning of Saturday, 14th, after the American accounts by the steamer *Persia*. The sales of the day to the hour of the *Niagara's* sailing were 15,000 bales, at 8-16ths of a penny on the previous rise of 1-16d.@ ⅛d., placing Orleans Middlings *a fraction above eight pence sterling*, or about 16 cents the pound. This, on the Gulf bale of 500 pounds, is equal to $80, the highest rate attained for ten years past. The Grain markets at Liverpool are reported quiet. Indian Corn without change in price. Wheat and Flour weak. There is nothing in our dispatch of the Continental Money markets. The mail will probably reach New-York late to-night. The steamer had not reached Boston when our paper went to press this morning.

Our own money market closed for the past week quiet, and outside of Bank easy at the rates of 7 ₱ cent. on demand, and 9 ₱ cent. for prime discounts, and 10@12 ₱ cent. for fair to second choice lists of paper. The offerings as most of the active commercial banks were quite full, though not pressing. The California arrival of a million and a quarter in Gold on Saturday, and the signs of larger disbursements from the Sub-Treasury at the close of the week, together with the favorable ruling of both the Foreign and Interior exchanges, are expected to arrest any further diminution of the Specie reserve, and possibly save the further curtailment of the line of discounts. The income of the Banks this week, from the 4th March payments, will be heavy. To-day the Manhattan Bank will disburse $850,000 on the March Coupons of the New-York and Erie Road. The Tariff question will probably be settled at Washington in the course of the day. A very able Committee of Conference on the disagreement of the two Houses of Congress was raised on Saturday, consisting of Senators HUNTER, DOUGLAS and SEWARD and Representatives CAMPBELL, LETCHER and DE WITT. Aside from whatever influence this question may have on the Sub-Treasury, the Deficiency Bill of the present session and the special appropriations to claimants, and for extra pay of the Army, will raise the total budget for the current financial year from present appearances from $65,000,000, as voted at the long session, to $70,000,000 or $72,000,000. On the other hand the Custom Revenues estimated in advance by the Secretary of the Treasury at $64,000,000, the same as last year, are likely to reach $75,000,000 or 22½ ₱ cent. average duty under the Tariff, as now regulated, on $50,000,000 increased imports, unless the entries for the four remaining months of the financial year are influenced by some change in the schedules.

The Foreign Trade at the port of New-York the past week amounted, in the total Import entries, including the Dry Goods table in our last paper, to $5,448,782, against $8,505,816 for the week ending with February last year. As we expect to publish in a day or two the official Custom-House return of the February entries, calendar month, we omit our usual comparison with the last Treasury year by weeks. The unofficial weekly returns for the month make the February total on the Import side $24,966,700, which very nearly approaches the heavy business of July last, when the entries were $25,477,000. The Export clearances of Domestic Produce and Miscellaneous Goods the past week amounted to $1,539,247, against $1,106,955 the same week last year. The export of Specie direct was only $26,081, and nothing was sent to Boston for the Cunard steamer of Wednesday. On Monday last the *Asia*, from Liverpool, delivered $388,333 in Spanish and other Foreign Coin, which is held for the next Havana steamer, and on Saturday the *Illinois* from Aspinwall delivered $1,260,186 in California Gold, being the New-York portion of seventeen hundred thousand dollars brought down to Panama by the Pacific mail steamer of the 5th of February. The Sub-Treasury income during the week in excess of the Treasury disbursements amounted to $224,172, the balance on Saturday afternoon standing $15,167,160 against $14,942,988 at the close of the previous week. The interior gold exchanges of the week were not important, though ruling to moderate amount in favor of the City. No further shipments are made to Europe direct, and the tone of sentiment in relation to the specie item for the coming week is [illegible] on the average. Bank reserves to be made up [illegible]

The new Banks are required to establish nine new branches, the location of each being designated by the bill. The Lexington branch of the old Bank is to be withdrawn, as one of the new branches to be placed there. The State is to continue to hold the interest of $1,000,000 in the old Bank, and it is made the depository of the public moneys, and its notes made receivable for taxes.

The prospect brightens for the new coast steam and railway route hence to New-Orleans over the peninsula of Florida. The Florida Road, 128 miles, from Fernandina, on the Atlantic, to Cedar Key, on the Gulf, is being pushed to completion by Senator YULEE and his associate managers in the enterprise, and the great profit contemplated is the saving of 700 miles freight transportation by sea between New-York and New-Orleans, and the establishment of a line of steamships and propellers to run in connection with the road. The recent land grant of Florida to the work is of the most liberal character, and the additional security and value which is imparts to the mortgages and stock of the Company have greatly encouraged the proprietors. The distance from New-York to New-Orleans, by sea, will thus be reduced to 1,296 miles. The *American Railroad Journal* computes the freight time at 4 days and 17 hours. The passenger time may be made within 4 days, as in the freight calculation. Twenty-four hours are allowed for transfers at Fernandina and Cedar Key.

MR. GEORGE W. MCLEAN has been admitted to membership at the Stock Exchange Board.

The annual statement of the Manhattan Life Insurance Company will be found in our advertising columns.

Railroad Iron Northwest.

From the Milwaukie Sentinel.

We are glad to learn that Messrs. KELLOGG & STRONG have been appointed agents for the new line of propellers which the New-York Central Railroad Company intend to run during the coming season, between Buffalo, Milwaukie and Chicago. These propellers, nine in number, will be first-class vessels, and will run to KELLOGG & STRONG'S dock in the river. Should the business warrant it, more propellers will be added to the line during the season. There will be brisk times in the river the current year.

We notice elsewhere the sale of three river lots to a heavy Chicago forwarding house. They propose to erect at once a large warehouse for the transaction of their business. We hear of several other negotiations of the same sort on foot; all in view of the speedy opening of the new route for freight and travel between the East and the Upper Mississippi, by way of the Milwaukie and Mississippi Railroad.

The Coal Trade.

From the Philadelphia Ledger.

The railroads connecting the anthracite coal regions with tide-water are gradually increasing their business each successive week. The Lehigh Valley Railroad Company brought down for the week ending on Saturday last, 6,251 tons, making for the season 49,223 tons. All this is in excess of last year to the same time, by the same conveyance, the road not being open to coal tonnage at that time. The Reading Railroad Company brought down from the Schuylkill region for the week ending on Thursday last, 61,241 tons; being for the year, thus far, 216,954 tons, against 226,896 tons to the same time last year, being an increase by the two conveyances to this time over last year of 109,179 tons. There is every probability that the Canals will open as early as usual, and that the coal tonnage will commence with more than usual vigor.

Foreign Trade of Boston.

BOSTON, Friday, Feb. 27.

The imports of foreign goods at the port of Boston for the week ending Feb. 21 were as follows:
